MARTIN IN SUPPORT OF UNITED STATES TRUSTEE'S OBJECTION TO PROFESSIONAL FEE APPLICATIONS 19 20 1. Patricia A. Martin, declare: I am a Bankruptcy Analyst employed by the United States Department of 21 1. Justice, Office of United States Trustee for the Northern District of California. I am the U.S. 22 Trustee bankruptcy analyst who has been assigned to review and monitor the professional 23 fees in the Chapter 11 Pacific Gas and Electric Company case. 24 Pursuant to the court's Order Establishing Interim Fee Application and 2. 25 Expense Reimbursement Procedure, entered July 26, 2001, the Office of the U.S. Trustee 26 27 Some copies of the original of this document contained exhibits which were illegible 28 and omitted a portion of Exhibits I and N. The document is otherwise unchanged.

MARTIN DECL. IN SUPPORT OF OBJECTION TO PROFESSIONAL FEE APPLICATIONS

has received electronic transmissions of various professionals' monthly invoices and formal fee applications. These electronic transmissions have been uploaded into a database, data from which can then be downloaded into an Excel spreadsheet which allows an in-depth analysis of each fee application using a variety of methods.

3. **Overview Analyses**. Based upon the firms' electronic transmissions and using Excel software, I have prepared overviews of various firms' first fee applications which are attached as follows:

Exhibit A Howard, Rice
Exhibit B Heller, Ehrman
Exhibit C Ernst & Young

Exhibit D Skadden, Arps

Exhibit E Cooley, Godward

Exhibit F Milbank, Tweed

Exhibit G Pricewaterhouse

4. In additional to the overview analyses, I also reviewed and prepared further analyses, as necessary and appropriate, to identify areas in which fees being charged may be questionable or require further clarification by the professional - e.g., duplicative of other firm's services, administrative or overhead in nature, contrary to the court's fee guidelines, or no apparent benefit to the estate.

### 5. Heller, Ehrman (HEWM).

By my calculations, HEWM is charging the estate for 1,769.4 hour or \$206,808 in paralegal, law student and staff time as follows: (a) paralegals - 1173 hours, \$134,948; (b) law students/summer associates - 184.9 hours, \$21,653; and (c) staff - 411.5, \$50,207. See Exhibit B - Heller, Ehrman, by Professional. Of the \$206,808 in fees, \$82,522 can be characterized as indexing files, reviewing and updating files and organization of files. These administrative charges fees are attributable to the following individuals - Luster, Nwoso,

Stone, Constantine, Morris, and Gordon - and their itemized time entries are set forth in Exhibit H.

### 6. Ernst & Young Corporate Finance LLP ("Ernst & Young").

In its category "firm retention", Ernst & Young charged the estate for time spent checking conflicts and connections. Of the 121.2 hours or \$50,000 charge in this category, I have identified 82.2 hours or \$29,705 attributable to conflicts/connections checks. This number was obtained by reviewing the itemized entries under "firm retention" in Ernst & Young's Exhibit D for any reference to conflicts and/or connection checks or discussions.

### 7. Skadden, Arps ("Skadden").

Skadden seeks \$7,287 for travel time at normal billing rates as follows: (a) Gohlke, 4/6/01, 6 hours at \$330/hr. or \$1,980; (b) Christie, 4/6/01, 6.6 hours at \$580/hr. or \$3,828, and (c) Runyon, 7/23/01, 5.1 hours at \$290/hr. or \$1,479. The 4/06/01 time entry for Christie indicates travel was from San Francisco to London. Skadden's expense reimbursement figure of \$17,990 includes a request for \$9,255 in April. See Exhibit D - Skadden Overview.

### 8. Milbank, Tweed ("Milbank") Regulatory.

A critical analysis of Milbank's fee application was difficult because the firm interspersed its services related to regulatory matters through three categories: business operations, other litigation, and business analysis. In an attempt to understand the firm's efforts and potential benefit to the estate in the regulatory area, I printed Milbank's time entries in these three categories, identified those professionals who worked primarily on regulatory matters, and identified in general terms the nature of the regulatory work.

Exhibit I is a summary of the three categories containing fees related to regulatory/legislative matters. It shows that of the 2651.3 hours or \$1,033,445 fees in these three categories, at least 1813.4 hours or \$659,810 is related to regulatory/legislative work. This special analysis also points out that in the category Business Operations, Exhibit I - Page 2, \$51,408 in fees are being charged for summer associates billed at \$160/hour. Moreover, the analysis shows that there were eight lawyers with billing rates exceeding

\$375 per hour billing time to regulatory matters: Mr. Kramer (\$470/hr.), Ms. Urquhart (\$385/hr.), Mr. Feo (\$595/hr.), Mr. Neufeld (\$435/hr.), Mr. Sorochinsky (\$420/hr.), Mr. McSpadden (\$415/hr.), Mr. Johnson (\$420/hr.) and Mr. Marks (\$450/hr.) Several of these lawyers billed more than 150 hours to regulatory/legislative matters: Mr. Kramer, Ms. Urquhart, Mt. Marks, Mr. Feo, and Mr. McSpadden.

### 9. Milbank Commodities Trading Motion.

Most of Milbank's charges for the securities and trading motion are found in the business operations category. (There are also charges found in the creditor committee category; however, they are interspersed with services related to the committee's by-laws and confidentiality agreements.) The securities and trading motion cost the estate approximately 250 hours or \$104,624. The trading or commodities portion cost 151 hours or \$57,447 assuming you use 6/12/01 as the bifurcating date. Exhibit J sets forth the fees related to the securities and trading motion.

### 10. Milbank's Services Related to Rogers and Associates Employment.

Exhibit K sets forth Milbank's fees associated with the committee's effort to employ a public relations firm, Rogers & Associates. The entries, which were identified by reviewing the firm's charges in its fee/employment category, totaled 33.9 hours or \$14,736. (This figure included incremental hours related to other fee/employment matters. A rough estimate of the Rogers & Associates related fees is \$13,000.)

- 11. **Milbank's Management of Pleadings, Intake and Distribution.**Exhibit L sets forth the time entries for an individual who primarily tracked and distributed pleadings for a total of 64.5 hours or \$27,090 in fees.
  - 12. Milbank's Request for Reimbursement for a Printer.

Exhibit M is an itemization of Milbank's expenses based on its electronic transmission(s) to the Office of the U.S. Trustee, from largest expense item to smallest. On 5/21/01, there is an entry of \$3,275.03 for a printer expense.

## 13. PricewaterhouseCoopers ("PWC") Multiple Professionals.

A review of PWC's time entries indicated that a considerable portion of the firm's

28 \\\

hours included conferences, meetings, and calls involving multiple professionals. For that reason, I prepared a special analysis which isolated time entries involving multiple professionals. Of the total 4,544 hours or \$1,799,553 in fees being sought by PWC, at least 685 hours or \$361,233 in fees involve instances of multiple professionals. In an attempt to propose a reasonable adjustment to the multiple professional fees given the complexity of the case, I calculated that an adjustment of \$167,851 in fees or 46.5% of the fees being sought was a reasonable adjustment based on the following:

	As Requested		Sugg.Adj.
Creditor Committee Meetings PwC in House Meetings Comm.Conference Calls Calls/Mtgs-Other Prof. Meetings/Calls with PGE Court hearings	76.8 hrs 35,1 225.8 hrs. 118,0 44.4 hrs. 24,9 135.9 hrs. 73,9	774.00 191.00 012.00 042.00 015.00 399.00	\$54,759.00 \$35,191.00 \$39,888.00 \$5,927.00 \$21,352.00 10,824.00
Total	685.1 \$361.2		\$167.941.00

The suggested adjustment would allow two professionals to attend creditor committee meetings, committee conferences, meeting with other professionals and meetings with the debtor. All in-house conferencing would be disallowed. Court and other hearings would only be attended by one person. Exhibit N is the special analysis of PWC's multiple professionals' hours.

### 14. PWC - Creation of Time and Expense Billing System.

MARTIN DECL. IN SUPPORT OF OBJECTION TO PROFESSIONAL FEE APPLICATIONS

Exhibit O is a summary of the time entries related to PWC's fee application category. A review of the time entries for Ortwein (92 hours or \$18,400) and Perfit (126.6 hours or \$25,320) indicate that the firm is charging the estate roughly \$43,720 in fees creating a customized billing and time-reporting system.

III

I declare under penalty of perjury of the laws of the State of California that the foregoing is true and correct. Executed this 16 day of October, 2001, at San Francisco, California.

- against the state on 7/16/01, in SF Superior Court. The PX and a PX participant filed similar suits against the state in LA Superior Court. The PX filed a motion to coordinate the cases. A hearing re consolidation is set in LA for 9/21/01 A - Litigation (Block Forward Contracts). Cooley filed a claim with the State's Victim Rights Board related to the state's seizure of PG&E's block forward contracts. Reading of the time entries implies that the Cal Px and/or its participants allege a security interest. Southern California Edison, the PX, and 29 PX participants also filed admin claims. On 9/6/01, ALJ issued a ruling setting a hearing for 10/19/01. ..... Cooley filed PG&E's Inverse Condemnation Complaint State filed motions to dismiss all three complaints saying plaintiffs have not joined all indispensable parties & that they have not fully exhausted administrative remedies.
- B Initial Research. Cooley attorneys spent considerable time at commencement of case researching the conflict between state and federal bankruptcy jurisdiction related to CPUC issues.
- the RTO matter raises 1st Amendment issues. PGE's DS states that proposed new entity, Etrans, intends to join Western RTO when it is established by FERC. proposal to the FERC, pursuant to the FERC's order that the ISO and California utilities file an RTO proposal by 6/1/01. The CPUC's 5/24/01 order set off a flurry of activity at Cooley Godward. Apparently, PGE is taking the position that C - Western Region RTO. On 5/24/01, the CPUC ordered PG&E to comply with with its order that the ISO and the three California utilities submit their draft RTO proposals to the CPUC first so that the state can make a consistent
- court to order DWR to withdraw its determination that its revenue requirement is just and reasonable until it complies with federal and state laws and holds a public hearing to determine if their power costs are "just and reasonable." implementation of the DWR's revenue requirement. Cooley may also have been the firm that filed a petition with the Ca. Supreme Court on 9/10/01 to overturn the CPUC's 3/27/01 decision requiring the utility to pay the DWR 9.471 cents per kWh on an interim basis prior to the D - DWR. PGE disputes the DWR's revenue requirement and its projections. On 8/21/01, Cooley filed a Petition for Writ of Mandate or Writ of Administrative Mandamus in Sacramento County Superior Court. The petition requests the
